

Eric Martin

Revenue & Strategic Operations Leader | AI Enablement

Strategic operations leader with experience building the infrastructure that connects pipeline, planning, execution, and reporting. Known for designing practical operating models and identifying high-value opportunities to implement AI in non-disruptive capacities that improve visibility, reduce manual work, and support stronger decision-making. Brings a rare mix of business development, workflow design, technical systems thinking, and hands-on process architecture across growth-stage and customer-facing environments.

(316) 250-8333 / Newton, KS 67114 / ericm93.2023@outlook.com

PROFESSIONAL EXPERIENCE

Director of Business Development & Technical Systems

Kansas Electric, Inc. - Newton, KS | Oct 2024 - Dec 2025

- Supported business development efforts tied to more than \$100M in presented opportunities in 2025 and a forward-looking pipeline exceeding \$200M over the following 24 months.
- Built internal systems across CRM, estimating, field reporting, dashboards, and forecasting to improve visibility across commercial activity, delivery readiness, and operational decision-making.
- Identified opportunities to introduce AI and automation into internal workflows in non-disruptive capacities, improving efficiency and insight without compromising process stability or adoption.
- Standardized workflows connecting customer needs, quoting, execution feasibility, and reporting, reducing fragmentation and improving handoffs across teams.
- Partnered across leadership, field teams, and customer stakeholders to align growth efforts with execution reality and build systems that could support scale.

Head of Strategic Operations

Vale Field Services - Remote | July 2019 - Oct 2024

- Helped scale the company from startup stage to approximately \$4M annually by designing and implementing the processes, standards, and execution infrastructure required for growth.
- Built operational frameworks spanning planning, training, QA, customer coordination, vendor management, and field execution across distributed teams and customer environments.
- Acted as a strategic partner during pre-deployment planning, helping customers identify best-fit approaches, execution risks, and feasibility constraints before launch.
- Created repeatable operating rhythms and support structures that improved clarity, responsiveness, and delivery consistency across complex work.
- Applied systems thinking and targeted automation to reduce operational friction, improve consistency, and strengthen execution without forcing disruptive process change.

KEY SKILLS

- Strategic Operations
- Revenue Operations
- AI Workflow Integration
- Business Process Architecture
- Cross-Functional Leadership
- GTM Execution
- Forecasting & Pipeline Visibility
- Process Optimization
- Cross-Functional Leadership
- Root Cause Analysis
- Systems-Led Growth
- Pre-Deployment Planning
- Systems Thinking
- Operational Workflow Modeling

TECHNICAL SKILLS

- CRM & Workflow Systems
 - Dashboarding & Reporting Logic
 - Internal Tooling
 - Process Automation
 - Log Analysis/Debugging
 - Event-Driven Logic
 - C#, JavaScript, TypeScript, Python, SQL
 - Node.js, React, Playwright, Recharts
 - API Route Handlers
-
