

Eric Martin

Revenue Enablement & GTM Strategy Leader

Strategic revenue and operations leader with experience building the systems, planning rhythms, and field-ready frameworks that connect go-to-market strategy to execution. Known for translating complex business goals into clear operating models, practical enablement, and measurable workflows across customer-facing and cross-functional teams. Brings a rare mix of GTM systems thinking, revenue visibility, process architecture, and hands-on technical fluency, with a track record of improving clarity, consistency, and execution in growth-stage environments.

PROFESSIONAL EXPERIENCE

Director of Revenue Systems & Business Development

Kansas Electric, Inc. - Newton, KS | Oct 2024 - Dec 2025

- Responsible for business development efforts tied to more than \$100M in presented opportunities in 2025, with a forward-looking pipeline exceeding \$200M over the following 24 months.
- Built and refined the internal systems connecting CRM activity, estimating, forecasting, field reporting, and leadership visibility, improving alignment across revenue planning and delivery readiness.
- Translated commercial goals into clearer operating processes and field-relevant guidance, helping reduce fragmentation between customer needs, quoting, execution feasibility, and internal reporting.
- Identified and implemented practical AI and automation opportunities within internal workflows, improving insight, responsiveness, and efficiency without disrupting adoption or process stability.
- Partnered across leadership, operations, and customer-facing teams to improve consistency in how opportunities were evaluated, prioritized, communicated, and executed.

Head of Strategic Operations

Vale Field Services - Remote | July 2019 - Oct 2024

- Helped scale the business from startup stage to approximately \$4M in annual revenue by designing the operational infrastructure, planning rhythms, and execution frameworks required to support growth.
- Built repeatable systems spanning customer coordination, training, quality assurance, vendor management, planning, and field execution across distributed teams and complex customer environments.
- Served as a strategic partner during pre-deployment planning, helping customers and internal stakeholders align on best-fit solutions, execution risks, feasibility constraints, and delivery expectations before launch.
- Applied systems thinking and targeted automation to reduce operational friction, improve handoffs, and strengthen day-to-day execution without forcing disruptive process change.

KEY SKILLS

- Revenue Enablement
- GTM Strategy to Execution
- Strategic Planning
- Sales Process Architecture
- Cross-Functional Leadership
- Enablement Frameworks
- Forecasting & Pipeline Visibility
- Process Optimization
- Stakeholder Alignment
- Root Cause Analysis
- Systems-Led Growth
- Pre-Deployment Planning
- Systems Thinking
- Operational Workflow Modeling

TECHNICAL SKILLS

- CRM & Workflow Systems
- Dashboarding & Reporting Logic
- Internal Tooling
- Process Automation
- Log Analysis/Debugging
- Event-Driven Logic
- C#, JavaScript, TypeScript, Python, SQL
- Node.js, React, Playwright, Recharts
- API Route Handlers
