PROFESSIONAL EXPERIENCE

Director of Business Development & Technical Systems

Kansas Electric, Inc. - Newton, KS | Oct 2024 - Dec 2025

- Led business development efforts resulting in \$100m+ in presented opportunities in 2025, with a forward-looking opportunity pipeline exceeding \$200m over next 24 months. Strategy centered on relationship management.
- Designed and built internal tools and workflow systems for CRM, estimating, field reporting, dashboards, and forecasting, improving operational visibility and reducing reliance on fragmented manual processes.
- Translated field, customer, and business requirements into practical systems and workflows that supported quoting, execution, and day-to-day decision-making.
- Built and refined software-enabled processes using C#, JavaScript, Node.js, SQL, React, Postgres, PWAs, and related web technologies.
- Developed the company website and supporting digital infrastructure, contributing to stronger market positioning and lead generation.

Head of Strategic Operations

Vale Field Services - Remote | July 2019 - Oct 2024

- Scaled the business from startup stage to approximately \$4M annually by building the processes, standards, and support structure needed for consistent execution.
- Acted as a solutions-oriented partner with customers during pre-deployment and execution planning, advising on the best-fit approach, identifying feasibility concerns, and surfacing installation risks before work began.
- Served as the central point of coordination between customers, field teams, vendors, and internal stakeholders to keep projects moving and resolve issues quickly.

KEY SKILLS

- Revenue Pipeline Strategy
- Sales Enablement Systems
- Technical Solutioning
- Workflow & Process Design
- Implementation Support
- Field & Distributed Team Systems
- Forecasting & Opportunity Modeling
- Marketing & Brand Execution
- Cross-Functional Leadership
- Root Cause Analysis
- Technical Documentation
- Pre-Deployment Planning
- Systems Thinking
- Operational Workflow Modeling

TECHNICAL SKILLS

- API Design/Route Handlers
 - Typed Scheme Validation
 - State Management/Data Fetching
 - Mock Backend Architecture
 - Feature Prototyping
 - Data-Driven Feature Iteration
 - Log Analysis/Debugging
 - Event-Driven Logic
 - C#, JavaScript, Python
 - Node.js, React, Playwright, Recharts
 - Control Systems Concepts
-
